

Folketinget — Europaudvalget
Christiansborg, den 1. februar 2005

Til

udvalgets medlemmer og stedfortrædere.

Kommissionens prioriterede lovgivningsforslag i 2005

Til udvalgets orientering vedlægges Kommissionens liste over de lovgivningsforslag, Kommissionen har omtalt i sit arbejdsprogram for 2005. (Arbejdsprogrammet er omdelt som KOM (2005)0015 - bilag 1). Listen indeholder flere oplysninger end arbejdsprogrammet om de enkelte forslag - bl.a. oplysninger om tidsperspektiv, hjemmel, beslutningsprocedure og budgetmæssige konsekvenser.

Det skal bemærkes, at der ikke er tale om en fuldstændig liste over Kommissionens forventede forslag og initiativer i 2005, men alene en liste med de forslag til lovgivning, som Kommissionen har prioriteret så højt, at de er omtalt i arbejdsprogrammet.

Kommissionen har udarbejdet tilsvarende oversigtslister for de initiativer i arbejdsprogrammet, som ikke indeholder lovgivning, samt for de forslag og initiativer, som også forventes fremsat i 2005, men som ikke er omtalt i arbejdsprogrammet. Disse lister er ligeledes omdelt til Europaudvalget, jf.:

- KOM (2005)0015 - bilag 3: Liste over ikke-lovgivende initiativer, der er omtalt i arbejdsprogrammet
- KOM (2005)0015 - bilag 4: Liste over lovgivningsforslag i 2005, dvs. forslag, der ikke er omtalt i arbejdsprogrammet
- KOM (2005)0015 - bilag 5: Liste over andre ikke-lovgivende initiativer i 2005 (dvs. initiativer, der ikke er medtaget i arbejdsprogrammet)

Med venlig hilsen
Lone Boelt Møller,
Udvalgssekretær.

2004/MARKT/007	Marché intérieur et services	Proposition de directive concernant la gestion collective des droits d'auteur et droits voisins dans le marché intérieur	MARKT	04-05	European Community Treaty Articles 47 (2), first and third sentences and 55	codécision (COD)	x	Brief Description: The proposal will focus on the management of collecting societies in order to set up a level playing field which will enhance the trust into collecting societies from rightsholders and commercial users. Rightsholders should therefore see their rights protected in a better way and commercial users should be granted licenses on a more transparent basis, within the Internal Market. The purpose is not to harmonise all the rules governing collecting societies but to impose obligations necessary to the smooth functioning of the Internal Market without prejudging the legal mechanisms to be used by Member States in order to implement them. A Directive seems the most appropriate way to reach that target. Political Motivation: Commission Work Programme / 2005 / Prosperity. 2001/104	Marché intérieur et services	Proposition de directive du Parlement européen et du Conseil modifiant les directives 89/665/CEE et 92/13/CEE, dans le dernier lieu, portant coordination des dispositions législatives, réglementaires et administratives relatives à l'application des procédures de recours en matière de passation des marchés publics	MARKT	Jun-05	European Community Treaty art. 95	codécision (COD)	o	Brief Description: L'objectif est d'encourager davantage les entreprises communautaires à soumissionner dans l'importa quel Etat membre de l'Union, en leur donnant la certitude qu'elles pourront, si nécessaire, engager des recours efficaces dans le cas où leurs intérêts seraient lésés lors de procédures de passation de marchés de travaux, de fournitures ou de services. 2003/MARKT/22	Marché intérieur et services	Proposition de Directive sur les Services de Paiement dans le Marché Intérieur	MARKT	Jun-05	European Community Treaty Art. 95	codécision (COD)	o	Brief Description: Today the legal framework is fragmented and mostly based on national rules. This Legal Framework for Payments is necessary in order to complement the initiatives launched by industry (e.g. European Payment Council) on the payments infrastructures. It will guarantee an adequate level of customer protection, and ensure legal certainty for all parties. It will provide a passport to payment institutions. It is part of the simplification exercise since it will repeal previous EU texts (Directive 97/8/EC and Recommendation 97/489/EC) and harmonise in a codified way core pieces of legislation on payments in the Internal Market. 2005/MARKT/014	Marché intérieur et services	Proposition de Décision du Conseil instituant un panel en charge des recours contre des décisions de l'OHMI auprès du Tribunal de Première Instance	MARKT	04-05	European Community Treaty 225A			Brief Description: According to Article 225A of the Treaty, judicial panels may be created to hear and determine at first instance certain classes of action or proceeding brought in specific areas. The appeals lodged against decisions of the Boards of Appeal of the Office for Harmonization in the Internal Market (Trade Marks and Designs) represent almost 30% of the cases to be dealt with by the Court of First Instance. The consequence of this is the congestion of the Court of First Instance, which entails that proceedings are slowed down. Political Motivation: Commission Work Programme / 2005 / Prosperity.

The research programmes will be designed and intended to reinforce the momentum towards the realisation of a knowledge-based society, building on the European Research Area. The proposals, containing the main orientations, will be further detailed in a set of proposals for specific programmes and rules for participation. The overall aim is to maintain and reinforce momentum in creating an effective knowledge-based economy. Political Motivation: Commission Work Programme / 2005 / Prosperity : Following policy debate among stakeholders and EU institutions launched by the Communication on the future of European research (June 2004) the Commission will present its proposals on the 7th Framework Programmes (EC and Euratom). 2005/TREN/004	Transports	Proposition concernant la structure de gestion du projet industriel SESAME (entreprise commune) pour la réalisation technique du Ciel unique.	TREN	dec-05		codécision (COD)	o	Brief Description: The Single European Sky legislation seeks to consolidate air traffic service provision to be more efficient at the European level and to accelerate the development and implementation of the future European ATM system. The programme (SESAME – Single European Sky Implementation Programme) to develop the future system will require significant involvement at the European level and is currently estimated in the region of 200M€ per year from 2007 to 2017 and subsequent implementation investments could amount to 5bn€. A programme of such magnitude, needing to be driven at the European level, requires a robust and effective governance structure, able to mobilise and direct the necessary resources in an efficient and transparent way. The initiative seeks to make proposals to put in place the necessary governance structures to ensure that the SESAME (Single Sky implementation programme) can be properly funded and managed. 2005/EAC/017	Education et culture	Proposition de décision du Parlement européen et du Conseil établissant l'Année européenne du Dialogue interculturel 2008	EAC	Jun-05		codécision (COD)		Brief Description: The Year will seek to raise the visibility and importance of intercultural dialogue as a useful tool for addressing both internal and external challenges. More specifically, the Year will focus on raising awareness of the European citizens on the importance of intercultural dialogue, identifying and disseminating best practices in the field of intercultural dialogue, strengthening co-operation, reflection and dialogue between the actors (at all levels) of intercultural dialogue and contributing to the European Neighbourhood policy. Political Motivation: Commission Work Programme / 2005 / Solidarity : Brief Description: The decision will designate 2008 as the European Year of Mobility for workers as a means of promoting geographical mobility within and between Member States as a contribution to improving the efficiency of European labour markets, economic performance, the professional prospects of workers and the quality of living and working conditions. Political Motivation: Commission Work Programme / 2005 / Solidarity : The initiative is linked to the mid-term review of the Lisbon Strategy, and particularly to promote the adaptability of labour markets to the changing demands and priorities. A European labour market has still to be built as labour mobility between EU Member States remains extremely limited in comparison with, for example, the US. 2005/REGIO/005	Politique régionale	Proposition pour un règlement du Conseil instituant l'instrument européen de Solidarité et de Réaction Rapide	REGIO	mar-05	Secondary Legislation Base legal: to be determined		X	Brief Description: Extract from COM (2004)487 final, heading 3: citizenship. "Action at European level will also make possible a common approach to emergency situations. A solidarity and rapid reaction instrument will provide citizens with a European response in the event of major disasters. The scope of the foreseen instrument will include both immediate response (co-ordination and deployment of resources to combat a disaster as the event unfolds), and financial assistance to cope with emergency situations in the aftermath of an unforeseen crisis. It could also address the need to cover preparedness measures. The instrument will provide funding to give support to victims of terrorism; address civil protection requirements; and react to public health crises, as well as the effects of other natural disasters."
