Proposal for a

## **COUNCIL REGULATION**

**amending Regulation (EU) No 7/2010 opening and providing for the management of autonomous tariff quotas of the Union for certain agricultural and industrial products**

## **EXPLANATORY MEMORANDUM**

### **1. CONTEXT OF THE PROPOSAL**

Autonomous tariff quotas of the Union are needed for products where production in the Union is insufficient to meet the needs of the user industry in the Union for the current quota period. In response to requests from several Member States, the Commission, together with the government experts concerned, considered whether to open autonomous tariff quotas for certain agricultural and industrial products.

On 22 December 2009 the Council adopted Regulation (EU) No 7/2010 opening and providing for the management of autonomous tariff quotas of the Union for certain agricultural and industrial products and repealing Regulation (EC) No 2505/96 so that Union demand for the products in question could be met under the most favourable conditions.

Tariff quotas of the Union should be opened at zero or reduced rates of the autonomous Common Customs Tariff duty for appropriate volumes, without disturbing the markets for such products. Discussions at meetings of the Economic Tariff Questions Group showed that the Member States were ready to open quotas for the products covered by the proposal for a Regulation, without disturbing the markets for such products

The proposal is in line with agricultural, trade, enterprise, development and external relations policies. Especially this proposal is not at the expense of countries enjoying a preferential trading agreement with the EU (e.g. GSP, ACP regime, candidate and potential candidate countries of the Western Balkans).

### **2. RESULTS OF CONSULTATIONS OF THE INTERESTED PARTIES AND IMPACT ASSESSMENTS**

The Economic Tariff Questions Group representing the industries of each Member State was consulted. All listed quotas reflect the agreement reached by the Group.

There was no mention of potentially serious risks with irreversible consequences.

This proposal will follow an inter service consultation procedure and will be published after its adoption by the Council.

### **3. LEGAL ELEMENTS OF THE PROPOSAL**

Amendment of a Council Regulation opening and providing for the management of autonomous tariff quotas of the Union for certain agricultural and industrial products on the legal basis of Article 31 of the Treaty on the Functioning of the European Union. By virtue of that Article autonomous tariff quotas are fixed by the Council acting on a qualified majority on the basis of a Commission proposal.

The proposal falls under the exclusive competence of the Union. The subsidiary principle therefore does not apply.

This set of measures is in line with the principles for simplifying the procedures for the operators engaged in foreign trade and with the Commission communication of 1998 concerning autonomous tariff suspensions and quotas (C 128, 25.4.1998, p.2).

#### **4. BUDGETARY IMPLICATION**

Uncollected customs duties with a total amount of € - 9 422 228

## **COUNCIL REGULATION**

**amending Regulation (EU) No 7/2010 opening and providing for the management of autonomous tariff quotas of the Union for certain agricultural and industrial products**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 31 thereof,

Having regard to the proposal from the European Commission<sup>1</sup>,

Whereas:

- (1) In order to ensure sufficient and uninterrupted supplies of certain goods insufficiently produced in the Union and to avoid any disturbances on the market for certain agricultural and industrial products, autonomous tariff quotas have been opened by Council Regulation (EU) No 7/2010<sup>2</sup>. Products within those tariff quotas can be imported at reduced or zero duty rates. For the same reasons it is necessary to open, with effect from 1 January 2011, for certain products new tariff quotas at a zero duty rate for an appropriate volume.
- (2) The quota volume for autonomous tariff quotas with the order numbers 09.2977 and 09.2635 are insufficient to meet the needs of the industry of the Union for the current quota period ending at 31 December 2010. Consequently, those quota volumes should be increased with effect from 1 July 2010.
- (3) It is no longer in the interest of the Union to continue to grant tariff quotas in 2011 for certain products for which such quotas were established for 2010. Those quotas should therefore be closed with effect from 1 January 2011 and the corresponding products should be deleted from the list in Annex I to Regulation (EU) No 7/2010.
- (4) In view of the many changes to be made, clarity requires Annex I to Regulation (EU) No 7/10 to be replaced in its entirety.
- (5) Regulation (EU) No 7/2010 should therefore be amended accordingly.
- (6) Since the tariff quotas have to take effect from 1 January 2011, this Regulation should apply from the same date and enter into force immediately,
