

COMMISSION OF THE EUROPEAN COMMUNITIES

Brussels, 14.12.2006
COM(2006) 800 final

Proposal for a

COUNCIL REGULATION

laying down the weightings applicable from 1 July 2006 to the remuneration of officials, temporary staff and contract staff of the European Communities serving in third countries and of certain officials remaining in post in the two new Member States for a maximum period of nineteen months after accession

(presented by the Commission)

EXPLANATORY MEMORANDUM

Regulation (Euratom, ECSC, EEC) No 3019/87 of 5 October 1987 amended the Staff Regulations by adding an Annex X laying down special and exceptional provisions applicable to officials of the European Communities serving in third countries.

Articles 11, 12 and 13 of Annex X deal with the remuneration of officials posted in countries outside the European Union. Remuneration is payable in euros in Belgium but there is also provision for all or part of an official's remuneration to be paid in the currency of the country of employment. In that event, the portion paid in local currency is subject to a weighting.

The first paragraph of Article 13 of Annex X requires the Council to determine the weightings for third countries every six months.

Council Regulation (ECSC, EEC, Euratom) No 2175/88 of 18 July 1988 laid down the initial weightings applicable from 10 October 1987.

Since the new Staff Regulations entered into force on 1 May 2004 (Regulation (EC, Euratom) No 723/2004 of 22 March 2004), this system also applies to contract staff.

The first paragraph of Article 13 of Annex X to the new Staff Regulations now requires the Council to set the weightings applicable in third countries annually.

The most recent weightings were laid down by the Council in Regulation (EC, Euratom) No 351/2006 of 27 February 2006, which took effect on 1 July 2005.

Article 27(4) of the Act concerning the conditions of accession of the two new Member States created a legal basis for extending the application of Annex X to the Staff Regulations (rules applicable to staff working outside the Community) to officials remaining in post in the new Member States for a maximum period of nineteen months after accession. Weightings should therefore be set for these new Member States not only in accordance with Annex XI but also in accordance with Annex X to the Staff Regulations.

This proposal concerns the adjustment of weightings applicable from 1 July 2006 to the remuneration of officials, temporary staff and contract staff of the European Communities serving in third countries.

The budgetary impact is negligible compared with the total operating costs of the delegations.

The remuneration system for staff serving in countries outside the Community is based on purchasing power parity of remuneration paid in local currency compared with that paid in Brussels.

To apply this principle Eurostat calculates the economic parities. The weighting is the factor obtained by dividing the economic parity by the exchange rate. This means that implementation of the weighting system primarily involves calculating economic parities between Brussels and other places of employment.

The exchange rates used are established in accordance with the detailed rules for the implementation of the Financial Regulation and correspond to the date of application of the weightings.

Table A sets out the new economic parities, the corresponding exchange rates and the resulting weightings as at 1 July 2006 for all places of employment.

Table B shows the variation in percentage terms between the figures in Table A and those of July 2005 for all places of employment.
