5. DESCRIPTION AND GROUNDS

5.1. Need for Community intervention

Because of its economic importance, especially in the agricultural sector, the EC must be represented in international agricultural agreements, which represent an important means for following global developments and defending Community interests for the products concerned.

The payment of EC membership contributions to the International Grains Council (IGC) enables the objectives of the international agreements to be attained. The IGC which is responsible for administering the Agreement relating to the Grains Trade Convention 1995 and Food Aid Convention 1999, promotes the objectives of the Agreements, including international cooperation, exchange of statistical information, forecasting market trends, etc. and for the Food Aid Convention the guarantee that developing countries are ensured a minimum amount of food aid by the European Union. It is therefore in the interests of the EC to be a part of these Agreements.

The membership contributions are determined on an annual basis and are due for as long as the EC is a member of the Agreements.

It is clear that if the EC had to carry out on its own the same actions as are carried out by the IGC, the total cost of these would be much greater than the cost of the membership contributions.

5.2. Actions envisaged and arrangements for budget intervention

The EC pays membership dues on an annual basis for the International Grains Council.

The dues are paid for as long as the EC remains a signatory of the Agreements.

The European Commission participate fully in the activities of the IGC take full advantage of the benefits of membership.

6. FINANCIAL IMPACT

6.1. Total financial impact on Part B

Commitments (to the 3rd decimal place): EUR 0.937 million for the period of two years. 0.464 for 2008 and 0.473 for 2009.

6.2. Calculation

The expenditure involved in the application of the two conventions is covered by annual contributions from all members of the Grains convention.

Each contribution is fixed in proportion to the number of votes attributed to the member concerned and proportionally to its importance in the international market.

There are a total of 2000 votes in the Convention, of which the European Union holds 406 (after enlargement). The same figure is projected for 2008 and 2009. The estimated cost per vote for 2008 is €1.143 resulting in a Community contribution of EUR 0.464 million.

For 2009 and taking into consideration the adjustment of the price per vote, the cost estimated is EUR 0.473 million.
