IGC ON POLITICAL UNION

UK PROPOSAL: SUBSIDIARITY

Article for insertion in Part I of the EC Treaty:

"The Community shall take action in the exercise of the powers conferred by this Treaty only if and in so far as the objective of the proposed action cannot be satisfactorily achieved by action at the level of the individual Member States alone, in particular because the scope or consequences of the tasks involved require solutions which go beyond national borders.

Action taken by the Community shall not exceed the minimum required to achieve its objective."

Amendment to the second sentence of Article 4 of the EC Treaty.

"Each institution shall act within the limits of the powers conferred upon it by this Treaty and, in exercising those powers, shall apply the principle of subsidiarity established by Article ."
